## Scored 780 in GMAT

Hi all,

I never posted here, but I have been to this site along with others during my past two years journey toward this score and I want to give back. Before this, my scores ranged from 580, 640, 620 with mediocre quant scores never higher than 35. My verbal started off with 70% before settling in the 90% in the previous two. Today my quant scored almost doubled in percentile from 35 to 48 (44% to 85%) and despite the fact that I have not looked at a single verbal problem in the past two months since I took the test in March to focus on quant, I scored 46v (99%). I was skeptical that I could improve my score. I am looking at getting in to Top 20 unis and hopefully will be admitted .

Best Regards,  
George

By George :ohmy:

How did you manage 780; what books did you study, how many hours a day did you put in, which mock tests did you
